Fantastic property in excellent location in the center of Fuengirola!
This property consists of two apartments that currently functions as a private clinic. It is located in a magnificent area, in the center of Fuengirola, near the City Council and the Culture House. First you access

a large hall, where there are two bathrooms with shower. On the left there are two office rooms with waiting room and storage room. Right ahead is the main reception and a fourth storage room. To the left of the reception there is a large office that has access to a private patio of 40 m2. To the right of the reception there is a large waiting room and three other large offices. The office today functions as a prestigious medical center and is fully equipped to continue its current business, convert it into a business of any kind or a spacious apartment with 4 or 5 bedrooms, as originally, it was two independant apartments. It is only a few steps away from everything you might need and a five minute walk to the beach. Also, the malaga airport is just 25 minutes drive.
